## CREATE ON THE RUN

Create new objects directly at the property intake. Add the most important information, pictures and location information.

## EDIT AT HOME

Edit the rest of the information at your computer. Never forget anything!

## EXPORT, SHARE AND PRINT

Export the information directly to your website, to other estate portals or print a beautiful summary! Why not directly forward it to your clients?

# new possibilities

## SOFA MANAGEMENT

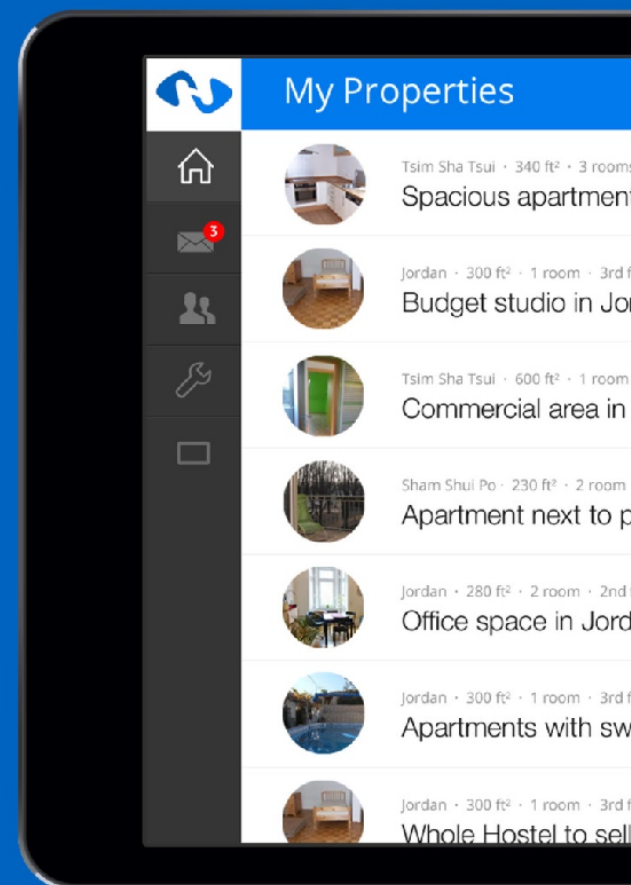

Manage your properties, clients and messages from your sofa. Update your website while you have your morning coffee - on your iPad!

## INTERNATIONAL MARKETS

Everything comes in different languages and is ready for international markets - without the need of an extra hand! English, German, Chinese? We have it covered! Square feet, metric system? Yes we do that!

## INTEGRATION

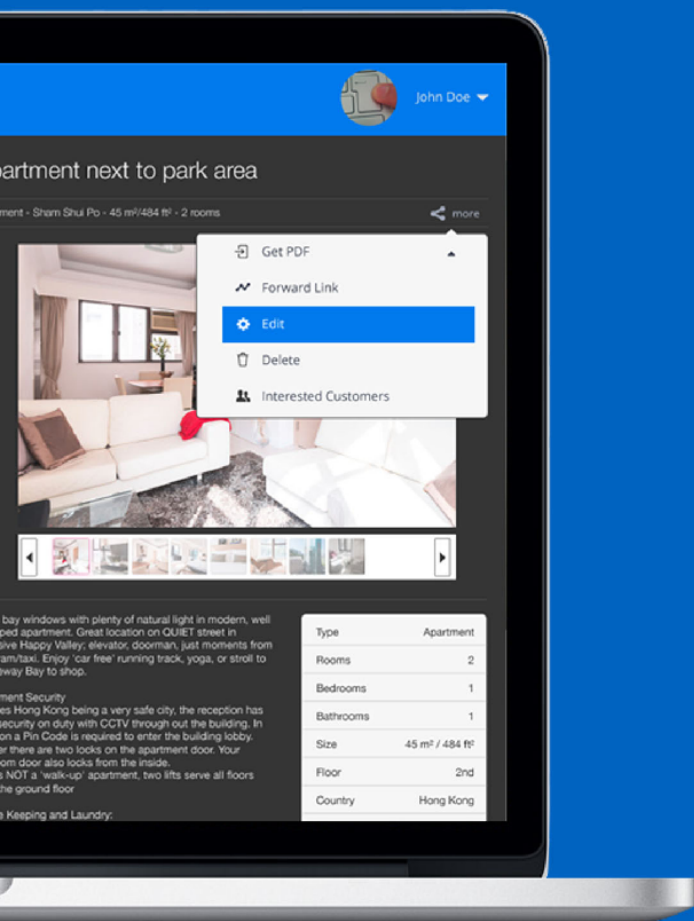

You have a google-account? Perfect, lets connect! Or you want to use your home email for messaging? Great, we have solutions!

# website included

## YOUR WEBSITE

Together with an account at the Estate Tool, you get your own website! No more huge management tasks, no more costly 3rd party services needed!

## EXPORT OR IMPORT

You're exporting to other portals? You are importing from your old software? You have custom exporting format. We would be happy to hear about it!

## NEED MORE

You want a feature that you are missing? Just drop us a message! We always have an open ear and we'll see what we can do for you.
